OHIO DEMOCRATS NAME TICKET

**JOHN M. PATTERSON FOR
GOVERNOR**

**The Name of Bryan Cheered by
Convention—John R. McLean
Resigns as National Commit-
teeman—Other Nominations.**

Columbus, Ohio, June 28.—After a session of six hours, with several striking features, the Ohio Democratic convention today named the following state ticket to be voted in November:

For governor—John M. Patterson, lieutenant governor—Louis B. Howell, supreme judge—Hugh T. Malherbe, attorney general—James A. Riley, state treasurer—Charles E. Mason, member of the board of public works—Patrick J. McGovern.

The office of state treasurer was the only one for which but one name was presented, eight contestants lining up in the race for governor and two balloting was necessary for that place and supreme judge. Before the convention assembled, the committee on resolutions came to an agreement on the statement of party principles. There was no dissent when it was presented.

The first session came when the report of the committee on organization was presented naming Judge Curtis C. Williams, a supporter of Veto, permanent chairman. A substitute report was taken from the floor of the convention, declaring the temporary organization be made permanent and calling for the roll call. But before it was completed Judge Williams moved the adoption of the substitute report unanimously, which was done.

Chairman Daugherty sprung the next session reading a communication from National Committeeman John R. McLean, of Washington, which was accepted. The chairman said filling the vacancy would go to the national committee and delegates of the next national convention. Chairman Daugherty gave no explanation for his resolution.

In the very first demonstration, the greatest came at the close of Chairman Daugherty's speech, when an impromptu tribute to William J. Bryan as the party leader in the nation brought out a storm of cheers, which lasted fully a minute, and it was reported later in the convention when other speakers referred to the former national candidate of the party.

The report of the committee on resolutions was devoted largely to state issues. The determination of the national administration to purchase supplies for the Panama canal in the markets of the world and not pay tribute to our "protected monopolies" is noted with satisfaction. The committee expressed that the time has come when the common people of the country may enjoy the same privilege.

Enactment of laws that will prevent restraints and secret contracts by railroads is demanded and that power be conferred upon the interstate commerce commission that when it finds a rate unreasonable it may fix a reasonable rate.

The party platform is successful to this for many candidates to eliminate the class of taxes upon the state by the Republican party, declares cities, towns and villages should be allowed to decide for themselves all matters of local policy, especially as between public or private ownership of all public utilities, taxation of railroads, the same as other property is demanded.

EX-SPEAKER HENDERSON ILL.
Dubuque, Iowa, June 28.—Dr. B. Henderson, former speaker of the national house of representatives, is confined to his hotel apartment suffering from a slight attack of paralysis. The right side is affected. While improving he said his condition is serious. Hopes are entertained that he will be able to leave his apartment in a few days. A report that Henderson suffered a second stroke is denied by relatives.

GUEST OF HARVARD

**President Roosevelt Participates
in Commencement Exercises
of Ancient Seat
of Learning.**

Cambridge, Mass., June 28.—Although nominally celebrating with his classmates the twenty-fifth anniversary of the class of '80 from Harvard university, President Roosevelt today was the honored guest of America's most ancient seat of learning. No degree of honor was conferred upon him; as he already holds the highest degree the university is empowered to bestow, but the welcome accorded him by Cambridge citizens, alumni and college officials was most cordial.

The president entered heartily into the spirit of commencement day and played a leading part in all functions incident to the occasion. It was scarcely 9 o'clock this morning when the lieutenant governor, representing the commonwealth, called at the home of Bishop William Lawrence, where the president spent the night, to escort him to the Harvard yard, where the academic procession was to form for the march to Sanders Theatre, the scene of the commencement exercises.

The number receiving degrees from Harvard today aggregated 99 and included seven honorary degrees.

Following the commencement exercises the president made three public addresses, one at Harvard Union, the second, and principal one of the tour at the annual alumni dinner in Memorial hall and the third from the steps of Memorial hall to members of the alumni who could not gain admittance to the Memorial hall exercises.

President Roosevelt and Secretary Taft were in conference at the residence of Bishop Lawrence for an hour early in the night and discussed the resignation of Chief Engineer Wallace of the Panama canal commission. Secretary Taft said a statement would be issued at Washington tomorrow. Taft left for Washington at 7:30 p. m.

It was arranged for the president to go to the car before midnight, although the train will not leave until 2 o'clock tomorrow morning. The train goes to Bridgeport, where the party will board the yacht, Sylph for Cayster Bay.

FRANCO-GERMAN Complications Overcome—Com- plete Agreement Considered Only a Matter of Time.

Paris, June 28.—The Franco-German complications have been so far overcome that complete agreement is considered only a matter of time. The nervous public sentiment has entirely disappeared.

St. Petersburg, June 28.—The Associated Press learns France is consulting Russia in negotiations with Germany. Russia is believed to be advising her ally to meet Germany half way.

Berlin, June 28.—The calm tone of the French press assumed since the reception of Chancellor von Bülow's answer has made an excellent impression on the German press, since it coincides with the view maintained here throughout that Morocco is not important enough to furnish occasion for warlike designs on the part of two great powers which are otherwise peaceably disposed.

TO ARBITRATE QUESTION
Chicago, June 28.—Following an all-day conference between the executive committee of the Illinois Coal Operators' association and the United Mine Workers of Illinois, an agreement was reached to submit the differences between the two organizations to arbitration.

Practically the only point at issue was the payment of shot-fires, whose employment was rendered mandatory by legislation enacted by the last legislature.

The miners are to be represented by H. C. Perry and W. D. Ryan, both of Springfield, and the operators by A. J. Moorehead of St. Louis, and H. N. Taylor of Chicago. The four men will convene at a fifth to be of national reputation and preferably not a resident of Illinois.

THREATEN TO BOMBARD CITY

**AFFAIRS AT ODESSA ARE
PRECARIOUS**

**Crew of Russian Warship Mu-
tined and Murdered Officers—
Strikers in City Active—Other
Reports of Revolts.**

Washington, June 28.—American Consul Heenan at Odessa today called the state department as follows:

"The Russian warship, Khlas Potemkin and one torpedo boat arrived yesterday evening. All officers were murdered at sea and bodies thrown overboard. The men threaten to bombard the town if interfered with. The situation is precarious. The black sea fleet is expected today."

HARBOR IN FLAMES
London, June 28.—A dispatch to a news agency from Odessa says all shipping in the harbor is in flames and a mutinous crew on the battleship Khlas Potemkin fired a shell, killing four cosacks and wounding seventeen.

AT ODESSA
St. Petersburg, June 28.—Dispatches from Odessa say strikers everywhere have been successful. They have stopped all traffic. Mobilization in St. Petersburg and Moscow began at midnight. Workmen are grumbling and trouble is expected.

Excitement arising from events at Lodz and Warsaw has spread to cities in Jewish points in all old Polish provinces along the western border of Russian Poland proper.

AT LODZ
Warsaw, June 28.—Conditions at Lodz are unchanged excepting most workmen have returned to work. Martial law still prevails. Universal condemnation of the strike movement has had the effect of quelling the situation.

The Associated Press learns the proposed mobilization of Russian Poland will be confined to certain country districts of southern provinces of Poland, exempting Warsaw and Lodz, where soldiers have been given to take in from reserves a sufficient number of men to make up the regular complements of regiments which have been reduced in strength by sending men to the far east, thus keeping up the full strength of regiments on duty in Russian Poland.

The crews of socialist agitators to force strike men here and at Lodz to strikes using severely criticized in public prints and the efforts of socialists since Friday to bring about a general strike have failed completely. The strike, however, among coal workers of southern Poland near the German and Austrian frontiers has again broken out and it is reported to be serious. Efforts have been made during the past night to bring about a general railroad strike July 1 or 2 to hamper the government's mobilization movement.

LODZ, Russian Poland, June 28.—Gen. Obolenski, military governor, to day summoned the editors of the papers and appealed to them to appease the minds of the people. He declared that martial law will last three weeks.

A delegation of inhabitants of this city is going to St. Petersburg to urge the abrogation of martial law.

The commission appointed to inquire into the disturbances Friday, June 24, has arrived here and given out a statement to the effect that the number of killed is over five hundred and wounded over one thousand. The commission severely reprimanded the chief of police for neglecting to stop the disorders before they reached a serious point. Scattered disturbances continue but order is generally restored.

MAY POSTPONE PROCLAMATION
St. Petersburg, June 28.—Some of the zemstvo delegates and marshals of the nobility in St. Petersburg were privately arranging for holding a congress at Moscow to consider the national assembly clause when it is issued when they were greatly alarmed to day by a rumor circulating that the emperor had suddenly decided under the stress of adverse influences, based upon the recurrence of disorders throughout the country, to postpone the proclamation until the project had been submitted to the council of the empire. As the council has adjourned until October such delay will probably do much to destroy the good effect of the emperor's speech at Tarskoe Selo to the zemstvo delegates and undoubtedly will greatly aggravate the internal situation.

WILL STAY IN ST. JOE
St. Joseph, Mo., June 28.—The St. Joseph franchise of the Western League will remain here. At a meeting tonight, President Perry Chamberlain dropped out and a new company was organized and now controls the franchise. Charles H. Watts, member of the legislature, was elected chairman of the committee of control and will likely be elected president of the club tomorrow evening.

IN FLAMES

**The Entire Harbor at Odessa
Now Burning**

London, June 28.—A dispatch from Odessa to a news agency dated Wednesday night, says:

"The whole quay and buildings around the harbor as well as much shipping are in flames. Mobs of incendiaries by armed force prevented the fire brigades from forming. The city is appallingly illuminated by burning buildings and terror prevails everywhere. Sleep is impossible and everybody is watching and waiting. The whole garrison has been requisitioned for patrol duty. It is thought it may become necessary to summon foreign warships for protection of foreign colonies. Tuesday night's collisions between the mobs and police and military resulted in the loss of seventeen lives, including three policemen."

SENATOR MITCHELL'S CASE
Portland, Ore., June 28.—The case of United States Senator Mitchell will not go to the jury before tomorrow night at the earliest and probably not until Friday. To day was consumed by District Attorney Heney finishing the argument for the prosecution. Judge Bennett will speak in behalf of Mitchell tomorrow morning, followed by Former Senator Thurston. Heney will then make the final argument. If time remains Judge De Haven will give the charge to the jury. This, however, seems unlikely.

HANDICAP SHOOT
Indianapolis, June 28.—The first day's events in the preliminary Grand American handicap shoot concluded at noon today, carried over from yesterday, consisted of ten twenty target events. W. R. Crosby, of O'Fallon, Ill., was first with 104 breaks out of a possible 200. Fred Gilbert, of Spirit Lake, Iowa, scored 104. C. M. Powers, of Decatur, Ill., was high boy among amateurs with 104 breaks.

AMERICANS BEATEN
Learned the Only Tennis Player
Now in Line for British
Championship.

London, June 28.—All Americans with the exception of W. A. R. Parnell are now out of the running for the British lawn tennis championship. Parnell, although defeated, had the distinction of providing the most sensational match of the tournament. In Wimbledon, reserve member of the Australian team which will compete for the Dwight D. Davis trophy, Parnell met a general whose steadiness enabled him to snatch a great contest from the American players. Parnell is a New Zealander and captain of the Cambridge university team. This match almost entirely depleted the other galleries.

Learned at the same time was winning in an almost equally hot struggle with an other New Zealander, H. A. Parnell. Throughout the match, however, Parnell seemed to have something in hand and although the match went five sets did not exert himself to the utmost capacity.

A. W. Gore, who took the first British team to the United States, proved too strong for Ben C. Wright. Gore kept a good length throughout, was extremely accurate in placing and maintained a tremendous pace.

The result of the Wimbledon tournament has given the British players a new lease of life and in anticipation of the Davis cup play they are already claiming certain victory for the Doherty brothers, but both Ward and Wright said to the Associated Press to day that while it would afford them satisfaction to secure the all-England championship cup, what they came for was the Davis cup, and this they expected to get.

Miss May Sutton, of Pasadena, Cal., won both matches the feature of her game being drives from the base line.

FOR USE OF CITIES
Chicago Democrats to Oppose
Disposition of Canal Water
Power to Private Interests

Chicago, June 28.—Advanced ideas to aid municipal ownership of street railways to select Democratic trustees for the \$40,000,000 canal connecting Lake Michigan here with the tributaries of the Mississippi River. A platform was adopted pledging candidates to allow to be disposed of private interests with power placed by the canal. Instead it is declared, waterpower should be turned over to the city of Chicago and other municipalities and utilized for operating street cars, public lighting, etc.

WRECKED BY TORNADO
Lincoln, Neb., June 28.—Messages from Fairbury, Neb., say the town of Phillipsburg, Kans., was wrecked by a tornado this evening. Six people are known to have been killed and it is feared many others met the same fate. Many persons, it is said, are dead in the country and five bodies have already been brought to town.

HONORS WON BY CORNELL

**REGAINED PRESTIGE IN
ROWING CONTESTS**

**Two of the Races of Inter-Col-
legiate Regatta Won by Stu-
dents of Cornell—Syracuse
Wins Four-Oar Race.**

Poughkeepsie, N. Y., June 28.—Cornell regained prestige in inter-collegiate rowing affairs to day by winning with utmost ease the variety eight-oar and freshman eight-oar races of the inter-collegiate regatta. Syracuse was given the decision in the variety four-oar race after a sensational and exasperating "mix-up," in which even the judges' boat gave out conflicting decisions, the victory being given first to Cornell, although Syracuse came first. Hesitation over the decision due to the two facts—first, some one on the judges' boat was in doubt as to identity of the leading crews as they passed the finish mark; second, that at the out-put of the race Syracuse was declared to have passed out of her course 10 feet from Columbia and there was a claim of a disqualifying foul against her. After a long delay the decision was reversed and declared in favor of Syracuse.

The three races were rowed under ideal conditions over the beautiful and historic Hudson river course, stretching four miles from Tarrytown to a point one mile below the towering steel bridge which joins Poughkeepsie and Highland.

In the variety race, the feature of the day, Cornell was never pressed after the first quarter mile had been covered and rowed across the finishing line in about length or more in front of the crew from Syracuse, which surprised the aquatic world by winning this event last year. Thoroughly beaten, but attempting to the last of limit endurance for the honors of third place, Georgetown and Columbia, swept by the judges' boat almost together, Georgetown having the slightest advantage. Back in the rut came Pennsylvania, and last of all finished Wisconsin whose chances had been favorably considered by rowing experts.

Cornell won the freshman race for eight-oared shells almost as easily, again having Syracuse as the nearest competitor.

In the four-oared variety Syracuse won Cornell was second, Cornell and Syracuse thus divided, giving the honors of the day, the former getting two firsts and a second and the latter one first and two seconds. Wisconsin furnished a big surprise by finishing last.

Columbia's crew redeemed themselves to a degree by a fine effort for third honors in the variety. Georgetown rowed much better than expected and Pennsylvania lived up to predictions made concerning her crew.

Syracuse's victory in the four-oared race set a new time mark for the event of 10:55.25 against 10:59.25 by Pennsylvania in 1900.

The variety eight-oared race was a procession from the start, interest being divided from time to time between applied dashes for second and third honors. With a long, graceful glide across the water, Cornell raised the lead soon after the start and increased the advantage by with one time being fifteen or twenty lengths in front. Courtney's men never moved a faster stroke than thirty-two to the minute, maintaining this average with the precision of clockwork through out the four miles. Behind Cornell there was a fierce wild scramble for second place. Nearly two miles Syracuse, Wisconsin and Georgetown rowed stroke for stroke down the course. Then Wisconsin broke to lead, Georgetown and Syracuse went on at a ding-dong pace and were soon joined by Pennsylvania, who rushed on from fifth place. Pennsylvania, however, gradually fell back toward the Wisconsin men in the rear. Near the finish Georgetown was almost even with Syracuse, but the latter crew when called on by the coxswain easily went forward, leaving Georgetown to do the utmost to save third place from the rapidly gaining Columbians.

The four-oared variety race was interesting, Syracuse, catching the water first, rushed into a lengthy lead in the first quarter of a mile. Cornell overcame this lead by the time the bridge was reached and had a slight advantage when near the end. Syracuse sprang gamely, passed the third place and was steadily gaining as the finish line was crossed. No end of confusion followed mistakes in placing the crews of this race and many wagers were mistakenly settled on the supposition Cornell was given first honor. Summary:

Four-oared variety race, without coxswains, two miles, for Kennedy challenge cup—Syracuse first, time 10:55.25; Cornell second, 10:57.25; Pennsylvania third, 10:59.25; Columbia fourth, 10:40; Wisconsin fifth, 10:52.

Freshman eight-oared shells, two miles, Stewart's cup—Cornell first, 9:55.25; Syracuse second, 9:57; Columbia third, 9:58; Pennsylvania fourth, 9:58.45.

University eight-oared shells, four miles, variety challenge cup—Cornell first, 20:25.25; Syracuse second, 21:47.25; Georgetown third, 21:40; Columbia fourth, 21:53.45; Pennsylvania fifth, 21:53.45; Wisconsin sixth, 22:06.15.

This growing friendship means much for the future welfare of mankind and I wish to thank you personally for the efforts you have made to foster it."

INDIANA BANK FAILURE
Terre Haute, Ind., June 28.—The Vigo County National bank, on which there has been a run the past two days, closed its doors this morning. A national bank examiner is investigating.

According to the bank's statement, June 1, the total resources were \$1,000,000; individual deposits, \$500,000; United States deposits, \$100,000. The discovered shortages of Cashier Connamer precipitated the run which led to the bank's closing.

The Indiana organization of the United Mine Workers has \$50,000 deposited in the bank.

BAND MASTERS Have Difficulty With Musicians Regarding Gold Braids.

Chicago, June 28.—The band masters of Chicago have united in a revolt against the Chicago Federation of Musicians. They appealed to the circuit court for relief and an injunction will be asked tomorrow to prevent the federation interfering with musicians employed by the band masters. Recently the federation issued an order that all musicians in Chicago should wear a certain style of blue uniform. The order was specified, the price of the uniform and unalterable made the uniforms. To this the band masters objected, no objection, but when the federation declared that no musician should wear a uniform with gold braid, they rebelled. The band masters who had fitted out their men with blue uniforms, protested against the lack of decoration, but the union gave the musicians until July 1 to get rid of the old uniforms. The band masters to day decided to make the matter into a court case.

Steps Taken Toward Reorgani-
zation of Society.

New York, June 28.—Grover Cleveland Morgan, J. O'Brien and George Vestling, trustees of the majority stock of the Equitable Life Assurance society, took the first step toward reorganization of the society to day, accepting the resignations of directors who tendered them and forwarding to the board of directors the names of nine prominent citizens, representing the interests of the stockholders with the recommendation that they be elected. The recommendation of the trustees was immediately complied with and the following gentlemen became members of the directorate: J. B. Thomas, M. G. Burne, R. G. DEMANDS MADE BY JAPANESE

**CESSION OF TERRITORY
AND INDEMNITY**

**Action Taken by Constitutional
Party of Japan—Interview
Premier and Present Their
Resolution.**

Tokyo, June 28.—A committee of the Constitutional party of which Marquis Saton is president met to day and passed the following resolution:

"The Constitutional party, since the outbreak of the war frequently published its conviction for the sake of realizing the aim and purpose of the war and by giving national unity of feeling. Now that the question of concluding peace has been brought up, though it is not necessary to state the terms of peace in detail, we yet deem it necessary and opportune to declare that, for the sake of realizing the aim and purpose of the war, we stand in the interest of our empire as well as for planting peace in the extreme east on permanent basis, cession of territory and repayment of outlays caused by the war be demanded and the German and Manchurian questions definitely and clearly settled."

Leaders of the Constitutional party after taking this action interviewed Premier Katsura and presented the resolution. A manifesto was published to day by the Progressive party identical with the resolution adopted by the Constitutionalists. It contains, however, the following additional points which the party desired to have incorporated in the peace agreement:

"Prohibit Russia to raise works for warlike use in localities where Japan's interests might be menaced. Compel Russia to relinquish the privileges enjoyed in Manchuria, refrain from further interference with the Manchurian question and place herself to undertake no measure deemed menacing to the peace or to the territory of China."

RUSSIAN WAR NEWS
St. Petersburg, June 28.—The general staff announced today that it has absolutely decided to support the many who require that Germany should not be allowed to commit suicide and a solution of the Russian army, apprehended on the contrary the idea, which the Russians have achieved a considerable victory. According to information in possession of the staff, operations thus far have been in the nature of preliminary maneuvers, general engagement, which has not begun. They regard the movement of the Japanese in Korea as being most serious. Believing it indicates a determination to drive the wedge northward and isolate and invest Vladivostok before peace negotiations begin. There are indications that the Russians propose to offer resistance at Tumen river.

New London, Conn., June 28.—Yale and Harvard will meet on the Thames river tomorrow in the annual contest for aquatic honors. There is not much betting to night at the Harvard supporters demanding liberal odds.

NEW BERLIN ROBBERY

Springfield News: After robbing the meat market of George Wolf at New Berlin Tuesday night, robbers stole a horse and buggy from Corrigan & Sullivan, grocers at that place, and drove to this city. The rig was found this morning at the Springfield golf grounds, but there was no trace of the men.

The robbery is thought to have been committed by three men who were seen loafing about the town during the afternoon. They did their work very deliberately and had evidently gotten the lay of the land before starting. The meat market was broken into some time about the middle of the night. Only a small amount of cash was secured. The burglars then went to the stable of Corrigan & Sullivan and caught the horse, which was running loose in the lot, hitched it up and drove quietly toward the city.

They are said to have been seen by several people, whom they stopped and asked the way to Springfield.

INTERESTING TO ASTHMA SUFFERERS

Daniel Bante, of Ottumwa, Iowa, writes: "I have had asthma for three or four years and have tried about all the cough and asthma cures in the market and have received treatment from physicians in New York and other cities, but got very little benefit until I tried Raley's Honey and Tar, which gave me immediate relief and I will never be without it in my house. I sincerely recommend it to all. For sale by J. A. Obermeyer, City Drug Store."

Promptly at the hour named the bride and groom entered the west parlor to the strains of the wedding march from Lohengrin, skillfully played by Miss Jessie Whorton. Dr. S. B. Moore, pastor of the Hammett street Christian church of St. Louis, was the minister before whom the vows were spoken, and the use of the ring service made the ceremony deeply impressive. Dr. W. H. Wilder, of Centenary M. E. church, assisted in the service and offered a fervent prayer. The attendants were Miss Rachel Peters and Mr. William L. Ransdell, brother of the bride.

The guest list was limited to the relatives and immediate friends and after the words of hearty congratulation and best wishes had been extended elegant refreshments were served. Many handsome presents, consisting of cut glass, china and silverware attested the high esteem in which the bride and groom are held by admiring friends.

An artistic employment of palms, cut flowers and smilax made the Ransdell home look very pretty on this happy occasion.

ATTEMPTED SUICIDE.

Twelve-Year-Old Son of San Francisco County Farmer Shot Himself in the Head.

Divertion 111, June 20.—Thomas Harvey, the 12-year-old son of Joseph Harvey, a miner of this place, attempted suicide Tuesday afternoon by shooting himself in the right temple. The boy is not yet dead, but it is believed his recovery is impossible.

The shooting occurred in the alley in the rear of the home. The weapon used was a 22 calibre revolver loaded with a blank cartridge into which a bullet from a regular 22 calibre cartridge had been fitted, after having been whittled down. That the attempt to suicide was a deliberate one is shown by the above fact, and the young lad who had been practically a kleptomaniac for most of his short life, stated that he could not rid himself of the temptation to take things, and therefore decided to die.

His father is well-to-do. The bullet tore a large hole in his head and probably lodged in the brain. Up to the present time the physicians have been unable to locate the bullet.

AUTOMOBILE RACES.

Dubuque, June 20.—The automobile championship races at Brunots Island started today. The first heat of the five-mile motor car championship free-for-all was made by Earl Kiser in 4:44.25, said to be the record in competition, defeating Chevrolet. In the final Barney Oldfield and Kiser started. Kiser's car broke down and Oldfield finished in 4:50.25.

In the ten-mile free-for-all, Oldfield and Chevrolet competing, the former led for four and a half miles, when a tire burst. Chevrolet made the ten miles in 10 minutes flat.

The Good Farm Horse.

For farm work we need good sized horses, and every farmer should start for the front and try to get into the draft stock. There is more pay in raising them for market and more work in them when put before the plow.—National Stockman.

Bred For Utility.

Bred for egg and meat production and not for "points" that are only valuable in exhibition stock. Always keep pure breeds, and keep them as close to the standard requirements as you can without sacrificing utility.—Farm Journal.

Milk and Sugar For Horses.

An occasional feed of milk and sugar is given show horses, but these produce soft flesh in general and are not satisfactory except in forcing young colts.

Seeberger's Stock of Clothing

Has been purchased by Frankel-Co less than twenty-five cents on the dollar, in fact we have not taken an inventory. We bought it in a lump, the reason being that our Mr. Frankel, who is in your city, has made a study of this particular line and being able to go through any stock of merchandise telling you within ten per cent of the value of it. Our business method has been in the past of buying up stocks of this nature or bankrupt stocks and we are therefore able to give the people at all times DOUBLE as much merchandise for a dollar than any other concern in the city and particularly genuine good goods, otherwise we don't touch it.

Concerning Seeberger & Bro.'s stock, you are all aware of the fact that the building has been sold and that we must vacate the premises by the first of July. Therefore we have leased the store room on the east side of the square, one door north of Hockenhull-Elliott Bank and Trust Co. The room is not large enough for this stock, besides we intend to carry a large stock of

MEN'S SHOES

with it. Therefore we will offer you the following, all high grade clothing of Seeberger & Bro., which has been reduced by the former sale 33 per cent below cost. We will in addition reduce 25 per cent more. We will give you an idea.

Take off 33 per cent 5.94

Balance 12.06

Additional 25 per cent off our

Reduction 3.01

Accordingly everything will be sold. Nothing is reserved, but remember we can afford it. We will make money at that, and the time is getting short. Only one more week.

Respectfully Yours,

FRANKEL-CO.

A sale is about to take place here. It will be the most talked of sale we ever had.

There will be an absolute sacrifice of profits.

We intend that there shall be no dull spot here during the summer season.

Besides, we need a great deal of room for the new goods soon to arrive.

When we say the saving will be *at least a third* on every piece of Furniture in the house, you can imagine that it will be a lively sale.

Commence Monday morning, 8 o'clock. The choosing, of course, is best right now.

Just read of some of the reductions.
